

VENUS COMFORT 2032K SERIES

TOUCH-FREE ELECTRONIC W.C. FLUSH VALVE SYSTEM WITH IRON FRAME

SPECIFICATIONS

Touch-free electronic W.C. flush valve system with a mechanical override or piezo button (depending on model) complete with metallic panel in satin finish and powder coated, blue color iron frame for wall hanging toilets. Suitable for installation in concrete and dry walls. Delivered as one piece complete with flush valve and all required accessories. Activated by a dual flush infrared sensor. Shut-off valve, filter and low battery indicator are included. Powered by a 9V battery or 9V transformer. With a 24-hour hygiene flush. Adjustable settings by remote control: sensor range, flush time, delay in, delay out, on-off and reset to factory settings. Low water consumption options and pre-flush operation are available upon request.

OPERATION

Touch-free electronic flush valve for W.C.. The water will flush once the user moves away from the W.C.

APPLICATION

Suitable for installation in concrete and dry walls. Helps washrooms stay clean and saves water. Ideal for educational institutions, gas stations, restaurants. In addition, its minimalistic style makes it perfect for locations with high design standards.

ADVANTAGES

- Contains 9mm holes for use in wood frame construction
- Galvanized steel leg support with adjustable height 0-200 mm
- Rotating foot plate
- Retractable leg supports to -50 mm, for structures on the floor
- Pre-mounted stop valve with throttle
- Protection cover against moisture and dirt for the service opening, can be cut to length
- Frame with C profile 40/40 mm
- Frame height from 1140 mm to 1340 mm
